

- 1) Consultation on Draft Site Allocations Document (Regulation 18) took place from the 24 September and 14 December 2020.

The draft Site Allocations document sets out the sites across the borough where development might happen. It assesses how this land could best be used to meet the needs of local people: how much housing, retail, workspace, leisure, community facilities, social infrastructure, public open space and other essential facilities could be built on the site while still respecting each neighbourhood's character.

The inclusion of a site does not mean that its existing amenities would be lost, rather they would be enhanced, expanded or improved.

Any proposals to develop a site would still need to apply for planning permission and achieve a high quality of design.
